Summary: Senior AI/ML engineer building agentic AI, LLM document intelligence, data pipelines, and developer tooling for fintech, risk, and compliance teams.

EXPERIENCE

Senior AI/ML Engineer

Frame Payments | Remote | Oct 2025 - Jan 2026

- Deployed a production LLM document intelligence workflow using PydanticAI, Amazon Bedrock AgentCore, and Claude; surfaced human-in-the-loop browser feedback for confidential uploads and reduced analyst follow-ups and resubmission requests ~90% by blocking miscategorized documents before review.
- Built multimodal restricted-item compliance screening that combines product images with structured submission metadata; translated banking-partner policy requirements into automated risk checks for merchant onboarding across tens of merchants, multi-location operations, and catalogs with hundreds of items per location.

Associate III, Senior Software Engineer - Data Integrations

JPMorgan Chase & Co. | New York, NY | May 2023 - Apr 2025

- Pioneered firm-wide rollout of secure generative AI developer tools (LLMs, GitHub Copilot, Codeium) as one of the first 500 engineers, delivering feedback that shaped scalable deployment and leading workshops to improve productivity for technical and non-technical teams.
- Devised ML-driven data-quality anomaly detection framework for credit trading and risk analytics, reducing false positives by 25% and cutting manual review time so risk teams could focus on critical alerts.
- Developed resilient Python wrapper for KDB+, democratizing data access for 5,000+ users with CI-style tests and optimized Q functions, reducing manual processing by over 10 hours per week.

Senior Software Engineer

Stealth Web3 Startup | Remote | Mar 2022 - Jul 2022

- Architected a scalable NFT-collateralized lending DApp using React, Next.js, TypeScript, MobX, and ethers.js, enabling secure, performant on-chain loans.
- Implemented end-to-end CI/CD with GitHub Actions, Husky, Cypress, and Jest to halve release cycles and raise test coverage to 90%, while mentoring a front-end intern to build key UI components.
